Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 25, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

I built a passive solar home 31 years ago. The Tax rebate and savings over the years on utility costs have saved me considerable money.

Also my carbon footprint is smaller than most.

We must consider solar as part of our needed energy for South Carolina.

Why do we continue to legislate as if we are in the dark ages.

I urge you to have an open discussion.

While the Energy Advisory Council's work in consideration of net metering issues is important, it is also necessary to continue public discussion and consideration of how existing rules can be improved to allow for clean energy resource competition in our state.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Mr. Jerome Glassman  
127 Pink Campbell Rd  
Landrum, SC 29356-9614  
(864) 457-5234
